Subject: RE: IFHC Policies

Lori and Dr Brittain,

I have been working on the Abortion Policy (I think it's a policy? It doesn't say what it is and doesn't seem like a procedure or a protocol) and I feel like this is updated in the way it needs to be at this point. I spoke with Chet Linson at IFHC and he gave me a good framework for looking at this, basically this is our policy, procedure, or protocol, but it HAS to align with both IFHC and Title X, so I looked at both IFHC's most current administrative and medical guidelines, as well as the current OPA update on Title X think I understand how to do this now, it takes a lot of cross referencing and research

Subject: IFHC Policies

Emma,

Please work with Dr. Brittain as needed to update the following policies/documents:

- Abortion policy (still based on 2019 rule; needs updated based on 2021 rule)
- Pregnancy counseling policy (update to 2021 rule)
- IUD protocols (MEC standards; resources cited are out of date)

All new documents are posted on sharepoint where they can be found and worked on.

Lori and Dr Brittain,

I have been working on the Abortion Policy and I feel like this is updated in the way it needs to be at this point. I spoke with Chet Linson at IFHC and he gave me a good framework for looking at this, basically this is our policy, procedure, or protocol, but it HAS to align with both IFHC and Title X, so I looked at both IFHC's most current administrative and medical guidelines, as well as the current Final Update from OPA on Title X and then the actual Federal Code that applies to this policy.

I think I understand how to do this now, but it takes a lot of cross referencing and research. Chet said this should not be done in a hurry. Dr Brittain, I did ask him if the whole book could be done in a few weeks time and he assured me that it could not. I have attached this policy for you to both review to see if it can now be signed, and I will send the other two as I complete them.

Emma
