**BLOOMINGTON, IN** — The Monroe County Community School Corporation (MCCSC) has announced the launch of **[MCCSC Online](#)**, a comprehensive K-12 virtual learning program available to students in the 2025-26 school year. MCCSC Online uniquely bridges virtual and in-person education, offering students the flexibility of online learning and access to MCCSC programs and services.

“We recognized that families need flexible educational options for various reasons – from health or medical considerations to travel requirements,” said MCCSC Superintendent Dr. Markay Winston. “MCCSC Online provides that flexibility without sacrificing the quality education and community connections that define MCCSC.”

MCCSC Online is an expansion of programming at [The Academy of Science and Entrepreneurship](#) and MCCSC Online students will be students of The Academy. The Academy will utilize Edmentum EdOptions Academy, a fully accredited virtual school approved by the College Board for Advanced Placement (AP) courses and by the NCAA Eligibility Center. All courses are taught by Indiana certified teachers.

MCCSC Online is open to all Indiana K-12 students, regardless of residence within corporation boundaries. There is no cost to enroll.

## Why Enroll in MCCSC Online?

**Academic Options:** Over 300 online K-12 courses are offered, including Advanced Placement (AP) and Career and Technical Education (CTE) courses.

- Classes include self-paced (asynchronous) and live (synchronous) instruction.
- Live on-demand help is available daily.
- Accommodations are provided for EPs, ILPs, and 504s.

### **Comprehensive Student Support:**

- Success Coaches monitor student attendance and progress.

- Special Education and English Language Learner support is provided through MCCSC and Mental Health Support is provided through MCCSC in partnership with Centerstone.

**Public School Recognition with Online Flexibility:** MCCSC Online high school graduates will receive a diploma from The Academy of Science and Entrepreneurship, an MCCSC high school.

**Research-Based Curriculum Design:** Through partnership with Edmentum's EdOptions Academy, the program employs six research-backed pedagogical approaches: mastery learning, active engagement, deliberate practice, metacognitive strategies, scaffolding, and explicit instruction.

**Hybrid Options (High School Only):** In-person courses may be available for online students (ex. band, chorus, Hoosier Hills, etc.) Details will soon be available in the MCCSC Online Handbook.

**Extracurricular Connections:** Students may participate in-person for sports and clubs at MCCSC schools. Details will soon be available in the MCCSC Online Handbook.

Courses begin on August 6, 2025. Parents and guardians can sign up for an email notification when the enrollment application is available at [mccsc.edu/online](https://mccsc.edu/online).
