

Media members: Today, we shared the following message with our community:

Dear MCCSC Community,

This afternoon, we were made aware of a non-specific threat to student safety. Out of an abundance of caution, we immediately initiated our school corporation safety plan and placed all buildings on lockdown shortly after 1:00 p.m. as we initiated all safety protocols and procedures in coordination with local authorities. During this time, instruction proceeded while students remained in securely locked classrooms. At this time, all schools are now clear and are confirmed secure. We want to thank our students, teachers, and staff for their swift response in carrying out our regularly practiced school safety protocols.

The MCCSC takes all reports regarding the safety of our students and employees seriously. As always, if you see something, say something. We appreciate our community members who partner with us to help keep our schools safe. Tips can be submitted to STOPit, linked on our home page (www.mccsc.edu) or use the STOPit app.

Teachers, parents, and students should reach out to their school with any concerns regarding student safety.
